SWANGO SPRINGS, APRIL 22. Your correspondent had the pleasure of visiting the good people of Bethsalem last Saturday and Sunday. Going over on Priday evening to Mrs. Isom Long's, I spent the night pleasantly with his kind family, and on Saturday morning was accompanied by his accomplished daughter, Miss Katie, to Trumbo Nickell's, where we spent a de-lightful day, there being a quilting there. Saturday night was spent at Wm. Haney's, where unkindness is a stranger. THE HER-ALD is a welcome guest at all named places, and they can't afford to live without it.

HAZEL GREEN ACADEMY. The directors of the above school take pleasure in announcing to the public that

highly satisfactory arrangements have been made for the positive opening of the school on Monday January 3d 1887. Three com-petent teachers have been employed whose qualfications are unsurpassed and their services secured for a term of years. In making this announcement we feel justified in asserting that the school will be an institution which will reflect an honor on this portion of the State and unsurpassed even by the more pretentious similar institutions of the large cities. Located in a favorable geographical section, healthy, moral, free from vicious allurements, and with a strict oversight looking to the protection, comfort and mental training of the students, parents can rely upon their children being safe while under the care of the faculty and trustees. The attention of young men and ladies who expect to teach is specially called to the advantages to be gained in

this sekool at a nominal cost. For terms of tuition and further information apply to W. O. Mize Hazel Green, Ky., or J. W. McGarvey Lexington. Trustees-J. T. Day, G. B. Swango, W. Q. Mize, Hazel Green, and Prof. J. W. McGar-

B.A. FAHRESTOCK'S ESTABLISHED 1887. It is now nearly six years since this medicin was offered as remedy for Worms, and from that time its remedy for Worms, and from that time its the present day it is almost universally acknowledged throughout nearly all nexts of the week to

with their children, cannot be too observing of the first symptoms of rooms, for so surely as they ext at they can be safely and specifily removed from the most delicate infant, by the timely use of B. A Fahnestock's Vermi use. Physicians do not hasitate to recommend it and use it in their practice, and many of the most eminent of the profession, from all parts of the country, testify to its uniform success. In fact, it never fails. It has frequently been given to children as a safe purgative, not suspecting the cause of the illiness, and large quantities of worms were discharged and immediate relief afforded. Great caution must be used by every purchaser to be his own judge in one sense, and to examine every bottle he buys of it. The simple name of Farkerston is not sufficient. He must look closely and carefully to see that the initials are B. A. Farkerston, and be attached with nothing else.
